

Support the Arts with your Home Mortgage

Did you know you can help support the arts in your community when you finance your home? If you choose your next mortgage through Wells Fargo Home Mortgage, the Mimbres Region Arts Council (MRAC) can receive a \$300 contribution through the company's *Sharing Advantage*® program.

Major Benton of the Reese-Benton Gallery recently utilized this program when he financed his home through Wells Fargo Home Mortgage. Benton said, "It was exciting to discover that a sizeable contribution would be made to the Arts Council just by utilizing Wells Fargo Home Mortgage's *Sharing Advantage* program. What a simple and easy way to support MRAC. I hope others will consider this opportunity when searching for a mortgage."

Here's how it works: At the beginning of the loan application process, ask about the *Sharing Advantage* program, which allows you to designate a non-profit organization to receive a contribution up to \$300, as long as the organization has 501(c)3 status. For the process to work and the donation to be made, you must tell the loan officer of your wishes up front, not at the end or after the mortgage has been processed.

The Mimbres Region Arts Council (MRAC) is a qualified 501(c)3 organization, dedicated to enriching the cultural life of southwestern New Mexico by providing quality programs that nurture and inspire a love and understanding of the arts. MRAC asks that you please designate the Mimbres Region Arts Council to receive these funds when you next use Wells Fargo to finance your home.
